

### **Data Management Plan**

The data management plan for this project will conform to NSF policy on the dissemination and sharing of research results and with the Sample and Data Policy established by the NSF Division of Ocean Sciences.

#### **1. Sample Archiving**

All core material to be used for this project will continue to be archived at the University of South Carolina. MOCNESS tow material will continue to be archived at the University of Rhode Island.

#### **2. Data Distribution and Archiving**

Geochemical and morphological results from the proxy development phase of this project will be included as a supplement to publication. Upon publication of all products resulting from this award, geochemical records generated from cores will be uploaded and made openly available.
